

# Edsby for Parents

*Edsby lets parents see what's happening with their kids at school, and helps them play a more active part in their childrens' education.*

## See everything academic about all your kids, in real time

You want your children to get the best education they can. That's where Edsby comes in. Edsby shows you what each child is doing, and how they're doing. It pulls together up-to-the-minute information about each of your kids and presents it in a clear, easy to understand format. See their assigned homework. And their attendance. And the specifics of what they're being taught in each class each day. Gone are the days of being told that "nothing happened at school today." Have richer discussions around the dinner table and help them with their time management skills.

## Edsby lets you see each child's school calendar

Sometimes it feels like you need to be a Ph.D to figure out complicated school timetables. Edsby knows about and shares the timetable for each of your kids, including custom day cycles and period schedules, as well as information on important upcoming tests, events, assignments, field trips or other appointments. Edsby will even automatically remind you when you need to do something. It even knows about any games and events in the clubs and teams your children are members of. It's a great reference to have when you book doctor's appointments and holidays.

## Edsby helps you communicate and engage with your school

Edsby shows you latest important news from your school and your district. Edsby also has an easy, convenient way to contact the school office or your children's teachers. Edsby provides a much more reliable form of communication for you between home and school than "paper in the backpack" and also saves a lot of trees in the process.

## Connect with other parents

As your school sets up interest groups in Edsby (clubs, teams, organizations), they may invite you to join some. If you want to, by getting involved with sports or other special interest groups, you can have an impact on your community that's even greater than simply that of your child's education.
